Silver Lake Students & Families,

As a school community we continue to live in unprecedented times. We find ourselves once again on the horizon of an instructional model change. These changes and unknown factors can be an anxiety inducing experience for students and families. For some, it might be difficult to navigate these feelings on their own.

OASD Student Services Staff are available as a resource to support students who may be struggling with anxiety or other mental health concerns. The counselors, school social workers, and school psychologist can provide individual support for students and families. Please reach out to the student services staff at your building if your child is struggling or if you need support in navigating these unique times.
